

# Powerpette® Plus Pipet Controllers

The Powerpette® Plus offers a unique combination of features to give you precision fingertip control in a classic streamlined design, suitable for users with large or small hands. The pistol-style grip and angled pipet holder make it ideal for use within a laminar flow or biological safety cabinet.

Powerpette® Plus has 3 aspirate & dispense modes. High and low settings both have variable speed, controlled through comfortable finger triggers. Gravity dispense mode is designed for use with TD (To Deliver) pipets. Each unit is manufactured in the UK to ISO9001:2008 quality system standards.

- ⊗ Allows 8 hours of continuous use
- ⊗ 'Low battery' light
- ⊗ Supplied with spare 0.45µm and 0.2µm hydrophobic filters, as standard
- ⊗ Environmentally friendly nickel metal hydride battery
- ⊗ Suitable for all types of pipets 1–100mL
- ⊗ Three year warranty

## Powerpette® Plus Pipet Controller

Powerpette® Plus comes in a choice of six colors: blue-green, mint, mauve, pink, yellow and classic gray. Powerpettes can be color-coded for user, for application or for location.
